### IMPORTANT CASES

#### UNDER MINES ACT

For taking into the Greenhill mine at Blairmore more than five pounds of explosives and storing same in the mine, in contravention of Section 66 of the Mines Act of Alberta, the following miners were convicted today and fines of \$50 and costs in each case, or three months in Lethbridge Jail, were levied: Arthur Apponen, Antonio Liisa, Martin Kubie and Steve Perce.

For having more than one canister of explosives in one place in the Greenhill mine at Blairmore, in contravention of Section 66, subsection 2, of the Mines Act of Alberta, the following miners were convicted today and fines and costs of the court, on seven days in jail, were levied in each case: Arthur Apponen and Antonio Liisa.

For entering the Greenhill mine at Blairmore before the time fixed for that purpose, in contravention of Section 8, subsection 3, of the Mines Act of Alberta, the following miners were convicted yesterday and fines of \$1.00 and costs each were levied: Mike Raton and Joe Kajan.

### ALFRED MANUEL MEETS

#### TRAGIC DEATH

The many local friends of Mr. Alfred Manuel will regret to learn of his death, which occurred tragically at Creston on Tuesday afternoon, when he was run over by the west-bound passenger train, his head and both arms being severed from the body.

The shocking fatality was witnessed by the usual gathering of citizens assembled on the platform.

The late Mr. Manuel was about sixty years of age. He took up residence in the Creston district about fourteen years ago, following a number of years residence at Frank, Alberta, where he operated the Frank hotel. It was he who in the boom time of 1912-13 laid the foundation for a hotel at Burnis, which was never constructed, as the coal industry there was short lived.

He is survived by his widow, living at Creston, and two sons, Herbert and William, the former in the military training school at Vernon, the latter in Alberta.

Funeral takes place at Creston this afternoon.

### UNIVERSITY RECOGNIZES

#### PROMINENT CANADIANS

The important services rendered to Canadian agricultural and industrial life by two prominent Canadians were fittingly recognized at the recent convocation of the University of Alberta, when the degree of LL.D. (honoris causa) was conferred on H. W. Wood, president of the United Farmers of Alberta, and Chas. C. Cannell, deputy minister of mines for the federal government. Mr. Wood has for many years been an outstanding figure in the development of agriculture and co-operation in western Canada and Mr. Cannell has contributed greatly to the mining expansion which has taken place in the Dominion in recent years.

The real reason why a small cavity in the tooth feels so large to the tongue is just the natural tendency of the tongue to exaggerate.

### PUBLIC NOTICE

PUBLIC NOTICE IS HEREBY GIVEN that the Council of the Town of Blairmore has given a first and second reading to a By-law providing for the expenditure from surplus of \$4000.00 for the building of a swimming pool.

On Wednesday, May 29th, between the hours of 10 a.m. and 6 p.m., at the Town Office, ratepayers may express by ballot their approval or disapproval of this project and should send three of the ballots received endorse the Council's action the by-law may receive a third reading.

ARTHUR J. KELLY,  
Secretary-Treasurer.

### ASK RATEPAYERS DECIDE SWIMMING POOL GRANT

At the regular meeting of the Town Council on Monday night, the Swimming Pool By-law received first and second readings, and by unanimous consent of the council the question of making the grant asked for (\$4000) will be submitted to a vote of the ratepayers on Wednesday next, May the 29th.

An outline in writing of the proposition being made by the West Canadian Collieries Limited, was read to the meeting and discussed. The proposition is as follows:

"To give the location, i.e. several lots in Block 1-A, on Victoria Street, between the Greenhill hotel and the west ward school.

"To have our engineers gather all documents, plans, specifications, and all data to enable a construction committee nominated by the council to select and decide on a project, also to assist in the supervision of the job, if desired.

"To have our architects draw complete plans and specifications.

"To install, at our cost, all heating, pumping and electrical installations, and, generally speaking, to contribute to the extent of \$2000 towards the cost.

"To connect the swimming pool, to our central heating plant, to provide all necessary heating for the water and buildings for a consideration of \$5.00 per day."

The company feels confident that their offer with the financial assistance of the I.O.D.E., the Elks and the Town, can be made a real success. It would be a real asset and a credit to the town and district, providing a desirable sport for both children and grownups, where they can enjoy themselves without risking their lives as at present in treacherous streams and spring pools.

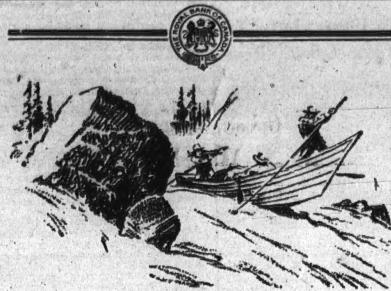

The company replies, in connection with drainage, that that difficulty can easily be solved. A connection with the company's pumps at the river would ensure the necessary water supply, without having to draw from the town's reservoir, which at present is very often overtaxed. The pumping would be supplied by the company free of charge. The same water line could be used for drainage, pumping the water from the pool back to the creek.

In case the location suggested was not found entirely suitable, an alternative site is offered, being a piece of land in Block 10, on State street, immediately west of the Pinkney residence, size 120 feet by 375. In this case, the heat would be supplied from the Greenhill tripple boilers.

The fact that the pool is to represent a War Memorial makes it imperative that a Main Street site should be chosen.

The ratepayers should consider this proposition very carefully and in doing so decide to vote in favor of the pool. Argument is being advanced against it that the upkeep will cost the ratepayers in the neighborhood of \$2000 a year, forgetting the fact that this amount, or even more, will easily be offset by revenue, a large amount of which will be derived from people living outside of our municipality. The offer of the West Canadian Collieries is a very liberal one and one that should be availed of. Their offer, together with that of the Elks and the I.O.D.E., simply signifies a desire to establish in Blairmore a war memorial that will serve to be more than ornamental, and it would be a step in the wrong direction were the people of this community not to fall in line and help support it.

Miss Viola Tse, cousin of former Miss Mary Kae, of the Blairmore teaching staff, recently graduated from the University of Alberta, with the degree of Doctor of Medicine. Miss Kae's home is in Calgary, where she has been connected with the staff of the general hospital.

## WORLD HAPPENINGS BRIEFLY TOLD

Plans for increasing the capacity of the Alberta Wheat Pool elevator No. 1, at Vancouver, by 2,750,000 bushels, giving the plant a storage of 4,750,000 bushels have been completed.

President Paul von Hindenburg, Germany's soldier-statesman, will retire from public life at the expiration of his present term of office in 1932, and spend the remainder of his days on his country estate in Hanover.

Mrs. Ernst Vierkötter, wife of the well-known marathon swimmer, will enter the 10-mile event of the Wrigley marathon at the Canadian National Exhibition if she is able to get into condition. She was formerly Germany's woman long distance champion swimmer.

Refusal of the U.S. supreme court to review its recent decision on the commuting of British subjects and naturalized citizens of Canada has led to the belief that only native born residents of Canada will be permitted to commute to that country for employment.

The H.M.C.S. Patriot, a destroyer presented to Canada by Great Britain following the war, has been ordered to a British ship breaking company and it is understood will be towed to England shortly for scrapping. Her propellers have been removed at a Halifax dry dock.

A request will be made to the Canadian government by the United States for information concerning the seizure of five United States fishing vessels in Canada's Goose Island harbor, British Columbia, for alleged violation of the fishing treaty between the two countries.

The Department of National Defence knows nothing whatever of any new explosive having been invented at Petawawa artillery camp, nor is the department conducting any experiments in connection with such explosives, was the official declaration issued from the department at Ottawa.

## Illness Kept Her From Work

"I took Lydia E. Pinkham's Vegetable Compound because I was so sick every month that I had to keep my bed for two days and I suffered so that I felt badly all the time. I had been working in a factory but for a long time was not able to work as I was so run-down and nervous. My friends told me of the Vegetable Compound. I am now sound and well and have gone back to work. I have a good appetite, my color is good and I am in good spirits."—Evelyn Bouque, 132 Alma Street, Moncton, New Brunswick.

Lydia E. Pinkham's Vegetable Compound

## C.P.R. Branch Lines

Heavy Programme Of Extension For The Season Of 1929

Under its policy of development and expansion, the Canadian Pacific Railway has already this season let contracts for 288 miles of branch lines construction in Western Canada, according to D. C. Coleman, vice-president, western lines. This figure was reached following the announcement of four additional contracts totalling 112 miles. It is expected that when the contracts for the newly authorized Langlin-Prince Albert branch are let, that the construction programme for the season of 1929 will call for slightly more than 400 miles. Work on these contracts will be commenced immediately.

Contracts announced follow: Nipawin, toward Prince Albert, 25 miles; contractor F. Mannix, of Calgary.

Kootenay-Landing to Proctor, 35 miles; contractor Dutton and Grant, of Winnipeg.

Arrive to Wymark branch from Lake Johnson to Wymark, 27 miles; contractors, Riley, Reid and Sandgren, of Edmonton.

Suffield to Blackie, branch from Arrowwood to Blackie, 25 miles; contractor Tomlinson Construction Co., Ltd., of Winnipeg.

Contracts already given this spring and which call for 174 miles of construction follow:

Acme, northeasterly, 25 miles; contractor F. Mannix, of Calgary.

Willingdon to Vegreville, 25 miles; Brooks Construction Co., Prince Albert.

Lake Alma, west, 18 miles; contractors, Riley, Reid and Sandgren, of Edmonton.

Lloydminster, northeasterly, 25 miles; contractors, Rosa and Wickstrand.

Coronation, Youngstown, 41 miles; contractor, F. Mannix, of Calgary.

This company will also proceed with the Lacombe northeasterly, a distance of 20 miles. Stewart & Cameron, of Winnipeg, are the contractors.

In making the announcement Mr. Coleman stated that Royal Assent had recently been received, to the legislation authorizing the construction of the branch line from Langlin to Prince Albert, and that it was proposed to let contracts for this work at the earliest possible moment, and immediately following the acceptance of the plan by the Board of Railway Commissioners at Ottawa.

This line will be 117 miles in length and will form an important link in the western branch line system. The programme, Mr. Coleman said, indicated that the Canadian Pacific Railway was proceeding actively with its projected branch lines and, further, that it was going ahead with its plans for the opening of the northern country. This was particularly emphasized by the letting of the contract to build the Nipawin toward Prince Albert, and by the fact that during the winter the company devoted a large amount of energy to the construction of a combined highway and railroad bridge over the Saskatchewan River at Nipawin. The piers for his bridge are now in place, he stated, and the structure will be completed as soon as possible. The company's keen interest in northern development was further indicated by the announcement that the Langlin-Prince Albert branch would be proceeded with this season. Another important line was that scheduled from Kootenay Landing to Proctor, in British Columbia. This line when completed will give an all rail southern route to the Pacific Coast. The line, a connecting link, was made necessary by the growth of traffic and will do away with the necessity of using boats on Kootenay Lake. The construction work itself will be one of the most difficult since early construction days in Western Canada as the line will be laid through mountainous country. It will be necessary to put in two tunnels, one 400 feet and the other 1,000 feet, and one bridge over the Kootenay Lake at Kootenay Landing which with approaches will be 2,500 feet in length.

The branch lines on the prairies will, he stated, prove of immense value to the agricultural communities and will greatly facilitate the movement of grain to markets and manufactured commodities of the farmers and distributing centres.

Negotiations with the Canadian National Railway are proceeding effecting the entrance of the Canadian Pacific Railway to Battleford and North Battleford, and negotiations for an exit for the Canadian Pacific Railway from Prince Albert northeasterly will shortly be undertaken.

## Ship Muskrate To England

What is stated to be a record commitment of muskrats in one batch to the Old Country was shipped on April 16th from Lindsay to South-end-on-Sea, England, in the care of the Canadian Pacific Express Company. The rodents are to form the nucleus of another muskrat farm in England, where the industry is thriving under an increasing demand for furs.

## Altitude Of Banff

Banff, the headquarters of Banff national park, Alberta, has an altitude of 4,538 feet above sea level and enjoys a climate which is in many respects, ideal. The air is exceedingly pure and has a most exhilarating effect.

"Traffic Cop; Don't you know you can't turn around in the middle of the block?"

"Fair Lady; Oh, officer, I think I can make it. Just watch."

## Recipes For This Week

(By Betty Barclay)

### THREE-IN-ONE RECIPE

**Lemon Gelatine**  
1 tablespoon granulated gelatine.  
2 tablespoons cold water.  
1½ cups boiling water.  
1 cup sugar.  
½ cup lemon juice.

Soak gelatine in cold water 5 minutes; add boiling water, sugar, salt and lemon juice. Turn into cold molds and chill.

**Lemon Sponge**  
For Lemon Sponge, when jelly begins to stiffen, beat with egg-beater until light and frothy.

**Lemon Snow**  
For Lemon Snow, add to lemon sponge the stiffly-beaten whites of 2 eggs.

### CORN SOUP

1 medium can corn.  
1 cup boiling water.  
1 slice onion.  
1 teaspoon salt.  
2 cups milk.  
2 tablespoons butter.

Rinse can with boiling water and add to corn and onion. Simmer 20 minutes. Rub through a sieve. Add mixture to 2 cups thin cream sauce (2 cups milk, 2 tablespoons flour, 2 tablespoons butter). Season and serve hot.

### Naming Our Highways

Continued progress has been made in the naming and numbering of major roads in Canada and in the execution of uniform direction and warning signs and danger signals. Inter-provincial conferences have been held for the purpose of standardizing signs, signals, and other highway devices throughout the Dominion.

### Old Clock Still Going

Among the possessions of Mrs. Emily J. Conaghan, Columbus, Ohio, is an old wall clock which she says has ticked every hour of her life. She said the clock is 90 years old, four years her senior, and has never failed to keep correct time.

## Heart Palpitated Nerves Bothered Her Sleep Was Broken

Mrs. Fred A. Pugliese, East Southampton, N.S., writes—"I was bothered very much with my nerves and palpitation of the heart, and my sleep was broken at night."

I decided to try

and after I had taken six boxes I found that they had done me so much good I will gladly recommend them to all those who are troubled with sleeplessness caused by their heart and nerves.

Price 60c. per box at all drugists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Many a man learns to shift for himself when he buys his first car.

## SUNDAY SCHOOL LESSON

MAY 26

### GOD'S LAW IN THE HEART

**Golden Text:** "Thy word have I laid up in my heart, that I might not sin against Thee."—Psalm 119:11.  
**Lesson:** Jeremiah, 31:1-40; John 1:17; Hebrews 8:7-13.  
**Devotional Reading:** Psalm 119:10.

### Explanations and Comments

**Individual Responsibility.** For Sin, Jeremiah 31:29.—There was an old saying among the Jews that the fathers have sinned our grapes and the children's teeth are on edge. The proverb puts the responsibility for the sins of one generation upon the preceding generation. In Jeremiah's day the people were complaining that they were being punished, not for their own sins but for the sins of an earlier generation. In the future, Jeremiah declared, individual responsibility would be recognized, a man would realize that he was judged for his own sins, not for those of others, and this proverb would no longer be repeated. The fathers had sinned, but the children had sinned, too, and the children would be held responsible for their own sins. To express this, Jeremiah amended the proverb to read, "Every man that eateth the sour grapes his teeth shall be set on edge."

Most people like to lay the blame for their misfortune or faults upon anyone or anything rather than upon themselves. It is the fault of circumstances that they are not more successful in life. It is their unfortunate heredity that has made their character what it is. Some one else to bear the blame is a "long-felt need" of human nature. Jeremiah placed the blame where it usually belongs.

In our soul God is constantly speaking to us—He warns us against evil. He exhorts and encourages us to good. Suppose a man has done another a bad turn. The one who has been wronged has been brooding over his wrongs, when suddenly he learns something about his companion, the knowledge of which by others will do him immense harm. He will have his revenge, he thinks; but while he is brooding himself in this way a voice is heard, soft but most persistent, saying to him: "It is a mean thing that which you have in mind to do, it is a cruel thing, don't return blow for blow, leave him to his thoughts, keep your heart untroubled." That is the voice of God.

Perhaps you are out somewhere when you see some one and accident happen. Your first impulse, after you have gratified your curiosity, is to go to the person and say: "What are the pleasures you give up compared with the sure and certain help to relieve? Come, make some sacrifices for the good of others, and don't think of your pleasure because it isn't spent upon yourself." That, too, is the voice of God in your soul, urging you on to be unselfish and merciful.—Stimson Simon.

Yet still there whispers the small voice within.  
Heard through God's silence, and o'er glory's din,  
Whatever creed be taught, or land be won,  
Man's conscience is the oracle of God.—Byron.

## "Just a Slice Of Ham" But With New Flavor

"They all said they weren't hungry—but look at the platter!" That's how it goes when you cook your slice of ham in Borden's St. Charles Milk, according to the recipe below.

The standard flavor is cooked in, and there's a suggestion of cloves, too—besides the extra-rich milk which gives every dish a superior savor and nutritive value. Be sure to use St. Charles milk—ordinary milk is too thin.

You'll be surprised how different this dish is from just plain ham.

### Baked Ham With St. Charles

1 slice ham cut about 1 inch thick, with rim of fat.  
1 tablespoon sugar.  
1 cup Borden's St. Charles Milk.  
1 teaspoon mustard.  
1 tablespoon flour.  
¼ teaspoon ground cloves.  
¼ cup water.

Trim off rim of fat and cut in very small pieces. Thoroughly mix sugar and mustard and pat into ham. Place in rather deep pan. Mix together cloves and sugar and rub through the fat place over top of ham. Dilute milk with water and pour over ham to cover. Bake in a moderate oven until ham is tender, about one hour. Add more milk as needed to cover ham while baking.

### Good Lamb Chop

Southern Alberta stock owners are harvesting one of the best lamb crops in years. It was revealed at the annual meeting of the Southern Alberta Sheep Breeders' Association at Lethbridge, Alta., recently.

A leading authority on steel has stated that the world uses 12,000,000,000 yearly due to the corrosion of steel.

Many a man learns to shift for himself when he buys his first car.

## Many Conveniences In British Post Office

People Accommodated In Many Ways For Small Charge

The British post office officials are capable and obliging and if anyone should lose himself, he can go to the nearest post office and mail himself home. An express messenger is sometimes given charge of a person and taken to his destination, where he obtains a receipt. The charges, based upon the distance travelled, are quite moderate. If you merely wish to prove that a letter has been posted, there is no need to register it. The Post Office will supply you with a "certificate of posting" for a halfpenny. If you miss the last collection of letters and have an urgent communication to send, ring up the head post-office of the district, tell them your plight, and dictate the letter. It will be posted the very next day with the night mail. The charge is threepence for the first thirty words, a penny for every ten afterwards, and the ordinary postage and telephone fee.

## Five Thousand New Farms

Increase In Alberta Six Per Cent. Of Entire Cultivated Area

Hon. George Hoadley estimates that 800,000 acres of land which was newly broken last season will be under crop this year in Alberta. That is equivalent to "opening" the 2,000 farms of a quarter section each, all entirely under crop. Or to twice that number with half of each under crop. The increase is approximately six per cent. of the entire cultivated area in the province. In sixteen years the rate of growth of the new farms would be doubled. And the outlook is that there will be more land broken this year than last. The oil drillers and mining companies are not the only parties who are making a lively drive on the latent resources of the west. The chap who is ripping up the sod is also doing a turn that is worth making note of.

Disinfection is the better part of squallor.

Every sower must one day reap from the seeds that he has sown.

## It May Be Urgent

## When your Children Cry for It

Castoria is a comfort when Baby is fidgety. No sooner taken than the little one is at ease. It restores a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, meant for babies. It is perfectly safe to give the youngest infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in an emergency that Castoria means most; some night when constipation may be relieved or colic pains or other suffering. Never be without it; some mothers keep an extra bottle, unexpected to make sure there will always be Castoria in the house. It is effective for older children, too, read the book that comes with it.

## THE CRIMSON WEST

— BY —  
ALEX. PHILIP

Published by Special Arrangement  
With Thomas Allen, Publisher,  
Toronto, Ont.

As dusk fell over lake and mountain, Donald returned from Wainwright's cabin. Andy glanced up expectantly as his friend appeared, but quickly averted his face as he saw Donald's features. Donald sank disconsolately to a seat outside the kitchen door. He had found Wainwright alone and wondered if Connie had purposely absented herself. Her treatment of him since her return puzzled him sorely and had filled him with a great despondency. As he rose and walked toward his cabin, Andy gazed after the retreating figure, eyes filled with compassion, then turned to speak to one of his helpers in such an irritable tone that the funny's mouth opened in astonishment.

For three evenings it was the same. Donald failed to find Connie at home; nor did she come to the mill. He regretfully decided that it was no coincidence, but that she was deliberately avoiding him.

On a Sunday afternoon Andy saw Donald's figure in the distance, the bluff, then turn up the trail leading to the dam.

At Donald's request Gillis had diverted logging operations to circle the little cove in the heavy timber, so that Connie's eyes could still hold its primeval charm and beauty.

Donald stood for a moment gazing reflectively into the white foam at the foot of the tiny cataract, then threw himself on the soft bed of moss and closed his eyes. But this time the fairy spot did not bring the usual delicious languor to his harassed spirit. Birds sang as sweetly, flowers filled the air with the same odour; the wind sighed as softly through the tree-tops, and the small brook still sang its rippling song. The rapid tattoo of a woodpecker's bill on a hollow tree jarred his nerves and he tossed restlessly.

A cedar pit floated through the air, blown by the wind, it fluttered in circles, then gently on the hands lying on his chest. His eyes opened, then, with trembling limbs, he came to his feet.

Connie, clad in faded overalls and cotton shirt, stood on the edge of the "nest." Her breast was heaving; her loosened golden hair flying in the wind. The softness in her blue eyes made Donald gasp, and his heart thumped as though it were in his throat.

"Connie!" he cried huskily, "I love you, dear! Don't you care for me a little?"

She sprang lightly to the ground and came toward him, her arms outstretched. Tears of joy coursed down her cheeks. "Oh, Donald, Donald, you big stupid!" she sobbed, "I have been waiting here for you every day. I—I have loved you always."

With a shock of incredible rapture Donald gathered her in his strong arms, where she cuddled like a weeping child. He kissed her red lips, her eyes, hair and throbbing throat. "My little Connie," he said, in a voice vibrant with feeling, "do you really love me?" He pressed his cheek to

hers and felt the flutter of her long lashes as she pressed the softness of her own closer. The quick, exquisite drawing of her sobbing breath, were lovely answering things, and he thrilled to hear her whisper: "Yes, Donald! Yes, Donald!"

Andy came walking meditatively up the path, his hands clasped behind him, his blond head bowed in deep thought. Not finding Donald at the dam, he walked up the hill to enter the meadow just as Donald chanced Connie in his arms. For an instant the little Australian stood rigid, his eyes bulging, then retreated hastily to the shelter of the trees. Any one seeing Andy at that moment would have thought him suddenly gone mad. He whirled about in a wild dance, hugging himself in an ecstasy of joy. Ceasing his mad gyrations, he dashed his hand across his eyes and bolted like a runaway dog the hill.

Gillis and his "redshirts" sat nursing themselves on the steps of the dining-room. They sprang to their feet as Andy came tearing down the hill. Breathlessly Andy told them of the scene he had witnessed. "We'll give them a blinks' good reception when they come down," he panted. He issued several sharp orders and the men scurried happily to execute his commands.

The train that was to carry the excursionists to the Coast was being made up on the siding. While they were awaiting this, the visitors watched with curious interest the mysterious preparations being made by the loggers.

At this moment, hand in hand, Donald and Connie turned the corner of the building. As they did so they came to a sudden halt and stared at the odd scene before them. The men stood in two orderly rows. The ground between was carpeted with wildflowers, and each logger held a bunch of balsam in his hand. At the far end of this line of men stood Andy, a wide smile on his drooping face. Connie lowered her eyes in confusion. Donald shook his fist at Andy. "You little beggar! You are responsible for this!"

Andy chuckled. "Come on, Connie, be a sport," he coaxed.

With flushed faces Donald and Connie walked down the aisle, while the men peeped them with flowers. The crowd of visitors clapped their hands in appreciation of this beautiful scene. As they neared the end of the gauntlet, Andy sprang to a stump.

"Three cheers for the 'appy couple!'" he yelled. A roar of cheering followed. "A tiger!" shouted Andy, and again the air trembled to the hoarse shout of brawny throats.

Donald led Connie straight to his mother. "Mother," he said bashfully, "meet your future daughter."

Quick tears came to his mother's eyes as Donald made this announcement. "My dear," she said tenderly, as her arms folded about Connie, "you are all love and tenderness."

The train's whistle screamed its warning and the crowd moved down to the station.

"Will you be coming home to us soon, Connie?" asked his father, as he was leaving. Donald, looked down at Connie.

"We'll visit you on our honeymoon, Dad," responded Donald happily. He swept his arm toward the mountains. "You could never leave this. The spell

of the Great West has entered my blood."

Janet had spent the afternoon paddling idly on the lake. When she received the news of Donald's engagement she concealed the ache in her heart by an outward air of indifference. The presence of a headscarf enabled her to keep in her cabin and she did not appear for dinner. She wanted to be alone with her thoughts.

When the shadows lengthened, Donald and Connie moved slowly along the path toward the bluff. As they turned a curve in the trail Janet came to the window of her cabin and stood watching them until they disappeared from sight.

Andy, sitting a few feet distant with his back against a tree, noted the look of despondency on Janet's face. He came to his feet and walked slowly toward the kitchen. "As Matheson said through 'is' whiskers, 'is who 'olds 'is 'ead too 'igh will 'it 'is blinks' toe.'"

As the lovers were about to turn up the mountain trail, the trapper emerged from the woods with his old pack-horse. The cayuse was piled high with luggage.

"Where are you going, John?" queried Donald.

"I'm hittin' the trail, of timer."

"I hope you are not leaving us," said Connie.

"Yes, I'm gittin' the country."

"Why?" questioned Donald.

"Gettin' too thickly settled. I feel that I ain't got room to breathe. I'm goin' way back into the Cariboo somewhere s'is I kin be by myself."

The race of medieval hermits is not dead. The spirit that led the first pioneers into the forest gorges there today. There are men whose souls long for a pure untamed, who yearn to breathe the wild free air. They want a home straight from the hands of the Creator, unspoiled by man. They may be trappers, who, brave cold and hardships to clothe mankind in warm furs; they may be prospectors, who search out the hidden gold for others to use. Whatever they may be, these hardy men blaze the trail for others to follow.

When Donald told the trapper of the coming wedding the old man's eyes softened. "I'm glad. It's just right. I hoped you two would get married." He shook hands gravely then chuckled to his horse.

"Good-by, Connie! Good-by, of timer! God bless ye!" he shouted over his shoulder.

Donald and Connie stood watching the patient old figure as he trudged behind his cayuse. At a turn of the trail stopped and for a long interval gazed back at the log cabin by the stream, which had been his home for so many years. He waved his hand in farewell; then horse and man disappeared from view.

When Donald and Connie reached the bluff the sun had sunk in the crimson west, leaving a rich horizon that spread across the horizon from west to east, the rich colours merging by slow degrees into that pure pearly grey which makes the long and lovely twilight of the British Columbia mountains. Down on the lake misty were gathering, but in the upper sky and on the glaciers a vivid orange glow still lingered. The trees stood stiff and motionless in the quiet air. From afar, subdued but clear, came the hoot of a blue grouse, and from mountain gorges came the faint sighing sound of distant waterfalls. Sweet and pungent odours of wild flowers came from the woods about them. A star of silver brilliancy sparkled suddenly out in the sky over the massive snow-clad peaks.

"Venus," whispered Connie.

Donald's gaze swept from the camp, nestled at their feet, to the darkening heavens, to the star or low, then down to the girl by his side.

There are moments in the lives of all men—regardless of creed or religion—when they feel the nearness of God. Such a moment came to Donald. He uttered no sound, yet his soul was crying out its great thankfulness.

Connie sensed his feeling. She bowed her head, her eyes misty with joy and gratitude. "Oh, God," she murmured softly, "we thank Thee for Thy many blessings."

THE END.

Took It Literally

An income tax clerk recently received from a "client" a form which was incomplete. Thereupon he sent it back with large crosses in red ink, where it was necessary to be filled in, with the words, "Please complete where marked in red ink." Some days after the following reply was received: "Dear Sir—I have no red ink—Your faithfully."

Sunday is being turned into doomday.

Minard's Liniment—good for tired feet.

## BABY'S OWN TABLETS

### WIN GREAT PRAISE

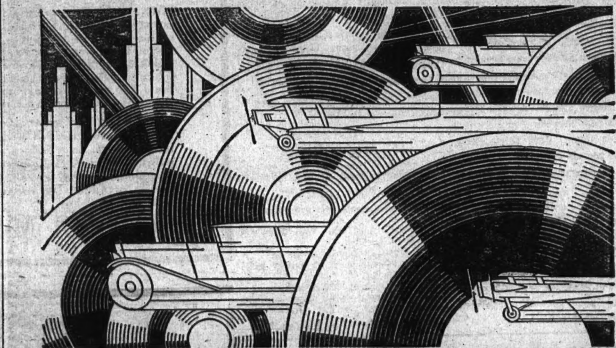

Many Mothers Always Keep Them in the House

Thousands of mothers state that they know of no other medicine for little ones to equal Baby's Own Tablets—that they always keep a box of Baby's Own Tablets in the home as a preventive of childhood ailments, or if sickness does suddenly grip their little ones they feel safe with such a remedy at hand.

Concerning the use of the Tablets, Mrs. Donat Plouffe, Timgwick, Que., writes: "I have nothing but praise for Baby's Own Tablets. They are the only medicine I have ever given my two little ones and I am glad to state that the Tablets have always kept them in perfect health. I feel so safe with the Tablets that I always keep a box in the house."

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels, sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fever and make the cutting of teeth painless. The Tablets are absolutely safe, being guaranteed free from all injurious drugs. They are sold by all medicine dealers or by mail at 25¢ a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The St. Mary's Journal-Argus says there are 55,000 chances of making a typographical error in printing a page of news. Needless to say, there are no errorless pages.

## Riding abreast of the times

You expect more from your motor car today than you did ten years ago. And you get it. Greater speed, smoother power and more responsive performance are common to modern cars as a result of the development of higher speed, higher compression motors.

These improved engines demand a better oil—fuller-bodied, with greater resistance to heat and wear.

To ensure a better motor oil, Imperial Oil Limited goes all the way to Peru for the crude from which to make Marvelube. Marvelube is made from a base that is rich in all the qualities necessary for better lubrication of the modern motor. It is today the oil standard for high-speed motors from coast to coast.

Marvelube is preferred by over half a million motorists in Canada and is the choice of aircraft operators because of its superior lubricating qualities.

There is a grade of Marvelube refined to meet exactly the specifications of your car or motor. Consult the Marvelube Chart at Imperial Oil stations and dealers.

**Marvelube**

## Active in Rust Research

### Woman Doctor Receives Appointment in Winnipeg Laboratory

Dr. Lillian Hollingshead has been appointed to the plant-breeding staff at the Dominion rust research laboratory, Winnipeg. She is a Canadian, her home being in Saskatchewan. She graduated with honors in arts and took post-graduate work in botanical science at the University of Saskatchewan, at Saskatoon, where she worked with Dr. W. P. Thompson on the cytology of wheat hybrids.

Miss Hollingshead has been working three years in California, with Drs. Godspeed, Clausen and Babcock, specializing in cytology, and has made some quite interesting discoveries in the cytology of tobacco hybrids, which findings were presented at the recent meeting of the American Association for the Advancement of Science at New York. At the rust research laboratory at Winnipeg she will co-operate with the plant-breeding specialist in attempting to produce rust resistant varieties of wheat.

## Little Helps For This Week

"The example and shadow of heavenly things."—Hebrews viii. 5.

From the eternal shadow, rounding  
All our sun and starlight here,  
Voices of four lost ones sounding,  
Bid us be of heart and cheer.

Falling on the inward ear,  
Know we not our dead are looking  
Downward with a sad surprise,  
All our strife of words rebuking.

With their mild and loving eyes  
Shall we grieve the holy angels?  
Shall we cloud their blessed skies?  
Shall we tempt to do something

If ever I am tempted to do something which is easy and pleasant, instead of something hard and disagreeable, which nevertheless I ought to do, if I can only think of those lost saints of mine, who always expected me to do right, and always showed the way, at once my will is fortified. No matter if we have our living friends, who are a law unto our lives, a nuncio to our wills, the cloud of witnesses cannot be too full of eager and expectant souls.

The influence of our beloved dead comes to us purified of all earthly dross and stain,—there is a flawless, moral inspiration.—John W. Chadwick.

First Canto—"What do you do with yourself now that the ice man is out of a job?"

Second Ditto—"Well, the man who collects instalments on the electric refrigerator ain't such a bad sort."

DOCTORS quite approve the quick comfort of Aspirin. For these perfectly harmless tablets will ease an aching head without penalty. Their increasing use year after year is proof that they do help and can't harm. Take them for any ache; to avoid the pain peculiar to women; many have found them marvellous at such times. The proven directions found in every package of Aspirin tell how to treat colds, sore throat, neuralgia, neuritis, etc. All druggists.

## Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestine sour. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Do prove this for your own sake. It may save your great many disagreeable hours. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians. Each bottle contains full directions—any druggist.

**ALBERTA R.C.M.P. REVOLVER TEAM WINS DOMINION CARTRIDGE CUP**

Word has been received by Inspector Junget, of Lethbridge "K" Division of the Royal Canadian Mounted Police, to the effect that the Lethbridge team, composed of Sergt. Smith, Corporal Felleter, Corporal Ford, Corporal Pelletier and Constable Mowat, had been successful in winning the Dominion Cartridge Cup for the third successive season. The winners of this competition will now compete against the winners of the civic and provincial police divisions for the open championship.

In their letter to Inspector Junget, the Dominion Cartridge Co. stated: "We wish to congratulate the Lethbridge team on their wonderful showing, which, for this type of competition, constitutes, we believe, a world's record."

**DISTRESS IN BLAIRMORE**

A few weeks ago, a deputation from the local union supported the appeal of a certain Blairmore citizen for relief from the town council. Feeling that the case was a very needy one, the council voted \$50 for the relief of this family, to be disbursed \$30 for groceries and \$20 for meats. Following is the list of grocery items in the order obtained: wax paper, sardines, dates, figs, grape fruit, tin peaches, raspberries, lettuce, oranges, dates, grape fruit, tin pears, green onions, cabbage, neck spuds, bacon, more spuds, green onions, lettuce, celery, trape fruit, 5 pounds butter, rolled oats, hot-house rhubarb, 4 pounds butter, 2 pounds rhubarb, lettuce, hot-house tomatoes, 1 pound butter, 2 pounds spinach, tin pork and beans, 2 raspberries, 2 pounds butter, peas, pears, 5 pounds butter, 2 pounds tomatoes, rhubarb, wax paper, lux, cucumber, jelly powder and ginger snaps. All the above were obtained between April 11 and 27, sixteen days. Just think of it, seventeen pounds of butter in sixteen days to be consumed by a poor (?) family.

Starting April the 1st, a teachers' pension scheme is in operation in British Columbia. Four per cent of teachers' salaries is set aside in support of the fund. A \$25,000 grant by the provincial government formed the nucleus of this fund.

A. D. CURRIE, Incumbent.

**PROVINCIAL TREASURY SHOWS RECORD SURPLUS**

Indicating the highly satisfactory condition of Alberta's finances, a surplus of \$1,817,871 of revenue over expenditure for the fiscal year ending March 31, 1929, is announced by Hon. R. G. Reid, provincial treasurer. This gratifying total is made up of a surplus of \$1,578,823 on general revenue and \$239,048 on the provincial telephone system. The former amount will be applied to reducing the debt of the province and the telephone surplus will be used to reduce the debt on that utility.

A surplus to this amount constitutes a record for any year in the history of the province and exceeds the showing made by any province in the Dominion in recent years. General satisfaction is expressed by members of the government with the sound position of the province's finances, this surplus being evidence of the fact that Alberta has turned the corner toward better times, as well as a strong vindication of the government's financial policies.

**IN MEMORIAM**

In loving memory of James Patterson, who died May 23rd, 1927.  
"They die in Jesus and are blest;  
How calm their slumbers are:  
From sufferings and from woes released,  
And freed from every snare,  
Their tongues, great Prince of Life, shall join  
With their recovered breath,  
And all the immortal hosts ascribe  
Their victory to Thy death."  
Ever remembered by his family.

In the absence of the pastor, Rev. conference at Calgary, the pulpit of J. W. Smith, B.D., who is attending the United church will be occupied by Mr. Antrobus, of Coleman, a missionary student.

Beale had a new dime to invest in "Why don't you give your dime to

the missions?" asked the minister. "I thought about that," said Beale, "but I think I'll buy the ice cream

soda and let the druggist give it to the missions."

Drumheller's tax rate, town, school and hospital, for the year 1929, has been set at 51 1/2 mills.

John McAndrew, of Calgary, mine rescue superintendent for Alberta, spent the week end with his family here.

An exchange, in reporting a wedding, said that Miss Dorothy Dix had become the "sponsoring partner" of Joe Jasbec. It was ever thus!

Alberta will be represented by the attorney-general, Hon. J. F. Lymburn, when two cases from the province are heard shortly before the Privy Council in London. In pleading each of these cases, Mr. Lymburn will be associated with special counsel.

One half of the world doesn't know how the other half keeps its legs from freezing.

Rev. Mr. Selkirk, of the Peace River, was an interesting speaker at Sunday evening's service at the United church.

The many friends of "Bob" Dickson are glad to see him back in Blairmore, after about a year's absence in Kimberley.

Alberta Elks will gather in annual convention at Calgary tomorrow. The Blairmore lodge will be well represented.

Miss Violet Rae and Leonard Matthews were engaged to sing a number of vocal refrains with the Alternatt orchestra at all their dances in the past two weeks and were much appreciated by the dancers. Miss Rae also assisted at the piano while Alternatt tooted the saxophone.

### CHAMPIONSHIP BOXING HERE SATURDAY NIGHT

A big boxing bout is to be staged at the Blairmore opera house on Saturday night, May 25th.

The main bout will be ten rounds between Kid Holland, of Drumheller, holder of the middle-weight championship of Western Canada, and Billy Lang, of Tacoma, Washington.

Holland is twenty-one years of age, stands six feet and weighs 160 pounds. He has met all the good ones of his class and is now stepping into faster company. Lang is twenty-two years of age and weighs 152 pounds. Some of the good ones he has met and defeated are: Paul Delaney, Freddie Mack, Young Harry Wills and Johnnie Walker. He also drew with Walter Craghorn, but got the newspaper decision. He knocked out George Ingersoll and others.

There will be two preliminaries and a semi-

final, the latter a four-round go between Billie Morris, of Coleman, and Jack Watson, of Hillcrest. This will be a sure hunder, as they have met on the other side of the pond, Morris getting the decision. Watson is not satisfied and they are going to settle it here on the 25th.

Jack Giola, representing the West-

KID HOLLAND

ern Canada Boxing Association, promises genuine exhibitions and that the main bout will be well worth the admission fee.

Doors will open at 8:30, the first bout to start at 9 p.m. Danny Lewis will be the official referee of the bouts.

### In Africa---

Beer, known under many different names according to the country in which it was used in ancient days, was also known and used in Africa. For how long it had been known to the natives is uncertain, but an eminent authority, Dr. G. T. Mann, tells us that the Kalifir races of South Africa have made for ages, and still make, a drink from the seed of the millet which is first subjected to a special process identical with our own. Right from the ancient Greeks up to the present time Beer is the accepted beverage.

Today Mal Beverages BEER — ALE — STOUT are considered Health Drinks.

Where BEER has once been introduced, it has generally become the national beverage.

## PUBLIC NOTICE

PUBLIC NOTICE is hereby given that there will be introduced in the Council of the Town of Blaimore a by-law, of which the following is a short synopsis:

"A By-law to authorize the expenditure of \$4000.00 from the surplus funds now in the hands of the municipality, to erect a Swimming Pool."

ARTHUR J. KELLY, Secretary-Treasurer, Blaimore, Alberta, May 16th, 1929.

BY-LAW NO. 210  
A By-law of the Town of Blaimore WHEREAS in the opinion of the Council of the Town of Blaimore, it is deemed expedient to expend the sum of approximately \$4000.00 for the purpose of constructing a Swimming Pool for the use of the inhabitants of the said town and to defray the cost thereof from surplus funds at the credit of the said town.

NOW THEREFORE the Council duly assembled, enacts as follows: (1) That the Mayor and Secretary-Treasurer be and are hereby empowered to take such steps as are necessary to acquire land for the purpose of erecting thereon a Swimming Pool and to incur such expenditure as is necessary to erect a Swimming Pool in accordance with the authority vested in the Council by Section 88 and 89 of the Town Act.

(2) That for the purpose aforesaid and subject to the final passing of this by-law the Mayor and Secretary-Treasurer shall, upon final passing thereof, be empowered to call tenders for the construction of the works or to cause the said works to be undertaken and proceeded with by day labor or as shall otherwise be determined by resolution of this Council.

(3) That public notice be given that the by-law has been introduced in Council and that unless within two weeks from the first date of the publication of the said Notice one-half of the resident electors of the town submit the by-law to a vote, the first meeting after the expiration of the time for receiving the petition herein referred to.

By-law read a first time this day of \_\_\_\_\_, 1929.  
By-law read a second time this day of \_\_\_\_\_, 1929.  
By-law finally passed this day of \_\_\_\_\_, 1929.

Mayor

Secretary-Treasurer

## ROMANTIC STORY OF PROGRESS

1876 - 1929  
Carry the mind's eye back half a century and there commences the most remarkable example of city building in the history of this continent. It's the story of Winnipeg, which has grown from an Indian Trading Post to the Grain Centre of the world and the Metropolis of the new Great West. And what is true of that pioneer city of the plains is true also of the West

as a whole, of modern cities like Regina, Calgary, Edmonton and many other progressive centres.

The morning of the 22nd of August, 1870, marked the closing of the Red River Rebellion. Louis Riel, shoeless and crazed with fear, fled a few minutes before Col.

Wolskel, at the head of the 60th Rifles, entered Fort Garry. The arrival of the troops infused confidence among the people of Fort Garry, trade revived, money became plentiful.

The first cabinet of Manitoba was formed on June 12th, 1871. A census in this year showed Manitoba's population divided as follows: French half-breeds, 5757; English half-breeds, 4083; Whites, 1565; Indians, 558—Total 11,963.

Winnipeg's population at this time was about 215 souls. Communication was by Red River Cart overland to St. Paul. No regular stage route was established. Mail came once a week. There was no bank, no post office, no lawyer, one doctor, one church, one little newspaper, one policeman and about 20 buildings in Winnipeg. The only currency in existence was Hudson's Bay Company's notes.

In 1873, Winnipeg (capital of the keystone province of the Confederation) was incorporated as a city with a population of 1800.

Amid these scenes and activities, J. H. Chambers, in partnership with W. H. Paulin, hardy pioneers, imbued with spirit and faith of the Selkirk settlers, started, in 1876, Western Canada's first biscuit factory—for Western Canada, the great land of promise, was at last on the road to progress.

The next 18 years saw a marvelous change in the growth of the West. The C.P.R. was opened in 1886, and from then on the prairie desert became a fertile plain, growing magnificent crops of grain. The eyes of the world turned to new Canada. Winnipeg expanded and grew. Population came. . . . In 1898 the east half of the present Paulin factory was built. In 1899 the company was incorporated. Now, firmly standing upon its "sea-legs" the company introduced the manufacture of Paulin Chocolates and Confectionery; starting with 20 different lines. And so to the great boom year of 1909 when overnight Winnipeg became a full-

grown city and every other town in the West experienced "growing pains." This company, however, maintained a conservative attitude in the face of phenomenal conditions and steadily expanded through the merit of its products, and the constant maintenance of the standard of quality first set by the founders, the master bakers whose pride in the purity and excellence of their product outweighed every other consideration.

In 1909 a very extensive addition was made to the eastern half which today constitutes the present factory.

## TOWN COUNCIL MEETING

The regular meeting of the Town Council was held on Monday night at the usual hour, with Mayor Farmer, Councillors Boche, Sartoris, Ferguson, Kubik, McVey and Morgan, and Secretary Kelly present.

The minutes of previous meeting

were adopted as read, and a number of accounts were passed for payment.

The tender for laying pipe lines to the cemetery was accepted, and motion was passed that surface lines be laid to carry water to certain sections of south Blaimore, where water mains were still frozen.

A communication was received from the West Canadian Collieries Limited, asking attention to the following: That South River Street be opened up from the concrete mine bridge to connect with Second Avenue. In this connection it was suggested that, as it takes many years to grow trees, as many as possible of the existing trees be spared, commensurate with the necessity of giving proper access to the ten dwellings fronting on the street. That some ditching or grading be done, sufficient to drain the water away from the front of the Greenhill hotel. That

the practice of allowing the thoroughfare in front of the Greenhill hotel and apartments to be blocked by oil vehicles, etc., be stopped, because such practice, besides being a detriment to the property in question is also dangerous to cars passing, particularly at night. That the portion of water main on South River Street, to the connection at West State Street and Second Avenue, be thawed out, as the ten services on this piece of line had no service since the end of January and eight of them are equipped with modern plumbing, ordinarily giving greater revenue than the average house service. And that this line be converted from its present dead-end by extending it west to Lillo Avenue and connecting with the main as shown on the attached blueprint.

All the above matters were referred to committees for immediate attention.

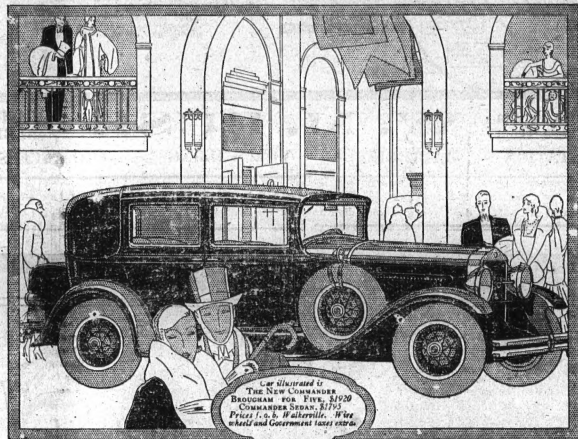

Upon motion, a building by-law, to

apply to residential sections of the town, received first and second readings and will be submitted for final consideration at next meeting.

A Calgary man, living in a large apartment house, came home late one night and discovered he had forgotten his key to the front door. "Oh, honey!" he yelled to his wife on the third floor, "throw your key." The next moment he was knocked unconscious by the fall of keys on the sidewalk.

## LOCAL GIRL RECEIVES SPECIAL RECOGNITION

As a result of her success at the Alberta Musical Festival at Edmonton, little Frances Lavelle, of Blaimore, was awarded the Edmonton Musicians' Association shield for the highest marks in junior instrumental music.

## A NEW AND FINER COMMANDER at a still lower price!

STUDEBAKER introduces the greatest motor car ever built and sold at its price—a new and still finer edition of the world-famous Studebaker Commander, which traveled 25,000 miles in less than 23,000 minutes.

**\$1795**  
f. o. b. Walkerville

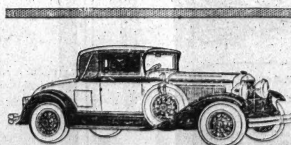

This new Commander is even finer, more brilliant in performance, more beautiful in line and curve and color. Yet its price, reflecting the savings of Studebaker's huge manufacturing facilities, is lower than ever!

The new Commander is easier riding, more comfortable in seating, steadier on the road at high speed. Studebaker's new ball bearing spring shackles, larger hydraulic shock absorbers, wider, deeper cushions and

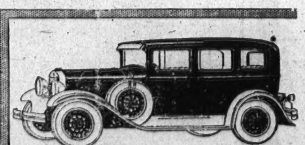

lower, double-drop frame, provide supple, pliant travel ease. Safety steel-core steering wheel, non-shatterable windshield and smooth amplified-action brakes enhance your safety. New carburetion, new manifold, new sureness of starting in cold weather—these are typical refinements of these superb cars. New color themes, new smartness, new power and good manners, characterize each of Studebaker's four great lines of motor cars, which hold every official record for speed and endurance. World Champion President Eight, New Commander, Dictator and Erskine Six—each offers performance, comfort, appearance, outstanding in its price class. Each is a champion—and a Studebaker. There are no finer motor car credentials.

# STUDEBAKER

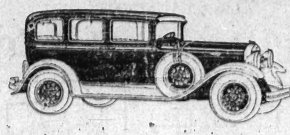

Builder of Champions

Dictator Royal Sedan for Five—\$1755. Champion of its price class—5000 miles in 9751 consecutive minutes—hydraulic shock absorbers—ball bearing spring shackles (wood wheels are standard equipment)—Other Dictator models from \$1550.

Erskine Royal Sedan for Five—\$1325. Finest, fastest car in its class—official A. C. A. record of 1000 miles in 984 minutes—luggage rack—shock absorbers (wood wheels are standard equipment). Other Erskine Six models from \$1095.

New President Eight Convertible Cabriolet for Four—\$2300. Folding top allows this smart closed car to be converted into an open roadster. Comfortable rumble seat for two in rear deck. Hydraulic shock absorbers. Other President models from \$2355 to \$3395.

All prices f. o. b. Walkerville. Wire wheels and Government taxes extra.

#### MOTHERS ARE HONORED BY PYTHIAN SISTERS

At the close of the regular meeting of May 14th a joint celebration of Mothers' Day and the sixth anniversary of the institution of Mispah Temple No. 9, Pythian Sisters, was held in the K. of P. hall, Hillcrest. Each sister had as her guest her own mother; if made impossible by death or distance, a substitute mother was invited.

These guests were each presented with a carnation, a small token of love and esteem. At the table a sumptuous banquet was prepared.

Sister Mansell, M.E.C., presided. The toast to The King was given by Sister Hutchison. A very appropriate toast to Our Mothers was given by Sister C. C. Cassagrande and responded to by Sister M. Atkinson. A few well chosen words were spoken by Grand Chief Sister Glendenning, of Coleman, and G.M.E.C. Sister Gray, of Blairmore.

The lodge also had the honor of having as guests Grandma Price, Grandma White, Grandma Small, Grandma Mackie and Grandma Porteous.

Rather singular and worthy of special mention was the presence of four generations, of whom Grandma Price was justly proud.

After supper games and dancing were enjoyed, the music was kindly given by Brother Norman Millar and Billy Kyle. At midnight a very enjoyable evening was brought to a close by all joining hands and singing "Auld Lang Syne" in the old-fashioned way.

#### VON STROHEIM SPLENDID IN "THE WEDDING MARCH"

Erich Von Stroheim has returned to screen! And he has done it in a fashion which increases the interest in what is undoubtedly one of the most fascinating personalities of filmdom.

In "The Wedding March," which will be shown at the Orpheum on May 24th, Von Stroheim heads a remarkable cast of screen favorites in a production which he also directed, and which presents a moving story of Vienna in the days before the world war.

The Corpus Christi procession before the cathedral in Vienna, photographed by the technicolor process, shows some of the most gorgeous scenes ever brought to the screen.

As an actor, Von Stroheim matches his excellence as a director, and is supported by ZaSu Pitts, undoubtedly one of the leading emotional actresses in motion picture, and by Fay Wray, the director's "find," a pretty miss who acquires herself in admirable fashion.

#### FINE TROPHY FOR CAMPAIGN AGAINST CROWS AND MAGPIES

Farmers, ranchers and other sportsmen wishing to get peasant eggs for hatching and live peasant chicks, in connection with the stocking movement which is spreading rapidly throughout the province, have been able to secure supplies through the Calgary Fish and Game Association. The association operates without profit. It is actuated by the desire to help the stocking movement.

Those who are interested may secure information by communicating with the secretary of the Calgary Fish and Game Association, c/o The Calgary Herald.

The Alberta association and the local associations are also conducting a vigorous campaign against crows and magpies. The suggestion emanating from the Hanna Fish and Game Association that a trophy for competition between the thirty-five locals in the province be donated, resulted in a generous contribution by Mr. A. E. Cross, of Calgary, of a trophy for this purpose.

The regulations respecting the trophy will be announced later. The Alberta Association is backing up the U.F.A. and Alberta government in the war against pests.

The tailor tries to suit his crowds. The lawyer tries to crowd his suits.

A local Waltonian on Friday morning last dreamt that he had left his old shoes with the cobbler to have them homaled, and that they were returned to him with the homals placed on the inside and clinted outside, instead of vice versa. He recovered from the excitement only after destroying practically all his 1929 fishing equipment.

Rev. Arnold Clay, brother of Rev. Herbert Clay, former incumbent at Blairmore and Coleman, was inducted as rector of St. Mary's Anglican church, Lethbridge, last night, the Lord Bishop of Calgary officiating.

## DESIGNED TO DO ALL THINGS WELL

It is an engineering achievement to combine all desirable qualities to an outstanding degree in a balanced whole. Yet that is exactly what Oldsmobile engineers have accomplished in the 1929 Oldsmobile.

Every phase of performance has been developed to a remarkable degree.

In appearance, this finer Oldsmobile is a tribute to the designing genius of Fisher artist engineers.

The roomy interiors are luxuriously appointed and richly upholstered. Restful riding ease is assured by four Lovejoy hydraulic shock absorbers.

Come, take a drive in the new 1929 Oldsmobile. Check its new lower prices. Then judge its value for yourself. 018-9-122

## Science in Service of Mankind

When the real story of human progress is told, probably the greatest contribution credited to the present generation will be the alliance of science with pursuits of peace and the mobilization of scientific minds for the common good.

This generation, more than any previous generation in human history perhaps, has effected a divorce of science from war. In the past, the best scientific minds were directed to the chemistry and physics of warfare, industry and commerce for the most part having to content themselves with the second-best or rely upon adaptation of some invention or process originally devoted to war.

That is a broad generalization which, in the specific case may not be true, but which, in the main, can be substantiated; and the fact remains that war has been the great stimulus to scientific research and invention and, until the present generation, a greater stimulus than industry, commerce and the pursuits of peace. It might also be said that science in its first alliance with industry and commerce had a background of war—of economic war. Now, however, the science laboratory is a workshop, in the true sense of the word.

Illustrative of this is the little country of Denmark, where agriculture has reached a scientific plane higher than in any other country. The great stimulus to scientific agriculture in Denmark was war. Following the war with Germany, in which Denmark lost the provinces of Schleswig and Holstein, the Danes turned their attention to the intensive cultivation of their very limited resources recognizing that, only by high commercial development of these resources, could they hope to survive as a people, and Denmark as a nation. That they have succeeded is proved by the fact that agricultural countries now look to Denmark for leadership and guidance in certain advanced phases of agriculture.

The aeroplane, too, now occupying a supremely important role in the development of Canada's remoter areas and great mineral-bearing zones, and serving to "devour distances" which hitherto occupied weeks, sometimes months, of arduous and hazardous travel, made its greatest advancement during the hectic days of the World War. There was less material difference between the original Wright aeroplane, or the plane in which Heriot first crossed the English Channel, and the planes used in the early days of the war, than between the planes of 1914 and those which patrolled the front areas in the days immediately preceding the Armistice. That process of development which gathered so much impetus throughout the war, has been carried into this post-war period, a fact which is abundantly manifest.

The World War saw a general mobilization of science not only in Germany where, for some years previously, industrial research had been encouraged in that country's efforts to wage successful economic war against its rival neighbors, but also in and throughout the British Empire and the United States. There was no demobilization of the forces of science after the war in these countries. There was imperative need of retaining the best scientific minds available in the work of reconstruction, and of meeting competition in world trade. Science thus has come into its own.

Canada came late into the movement, but having entered, is now displaying the energy and enthusiasm characteristic of its youth and growing power. With agriculture as the basic industry of the country, it is natural that the mobilization of science in Canada should be directed in large measure to the advancement of that industry. Within this movement, the chemist has turned his attention to the mulling qualities of wheat. The biologist is studying the theory of breeding crosses of the different kinds of wheat, the causes and remedies of plant diseases, the insect pests and their control. The physicist has begun to investigate soil temperatures and the engineer to consider power problems, water supply and waste in farm houses. The economists have concentrated on marketing problems, and so on.

Noteworthy already have been the achievements of the scientists at work in the Dominion Rust Research Laboratory, at Winnipeg. The progress already made toward the production of a rust-resistant wheat that will meet requirements as to milling and yield, have been so impressive as to presage an epoch-marking development in the near future.

### Always Come Through

Call it luck, or national stamina, whatever you will, there is something about the Briton that pulls them through. They are paying more taxes than the average German, Frenchman and Italian put together; they have commitments all over the world, and they have a surplus population, with tremendous problems of employment and trade. Yet they never quail.

### R.C. Onion Growers

The Vernon Fruit Union, which has closed its onion plot, is paying to growers \$46.61 net, including local rebates, for every ton of onions delivered to them on consignment during 1928. The statistics are recognized as particularly good. Hitherto \$34 to \$35 a ton has been deemed high.

### Canadian Graphite

Canadian graphite is marketed as refined flake, the product of concentration of disseminated ore. The mines and mills are situated in the Perth, Bancroft and Calabogie districts in Ontario, and in the Buckingham, Guenette, and St. Remi districts in Quebec.

Minard's Lintment for cuts and bruises.

### Canada's Largest Organ

Installation of the Royal York Hotel Casavant organ, the largest in the Dominion, has begun after months of preparation made for it. It was made in the world-famous workshop at St. Hyacinthe, Quebec, and its parts conveyed to Toronto in five railway cars.

## Guard Against FLU

### Sore Throat The First Warning.

Few families will escape. This epidemic constitutes a real danger. Health authorities everywhere warn the public of the danger of the common cold. "Flu" usually starts with Sore Throat. Unless the germs are killed by some antiseptic treatment a serious malady may develop.

A simple treatment is to gargle the throat three times daily with Nerville. The saltwater properties of Nerville cure the germs in the throat. Of course if the chest is sore Nerville should be rubbed over the affected area—lots of rubbing—it can't burn a blister, but will bring out the congestion and break up the cold.

To prevent "Flu" or colds from gaining headway Nerville will prove most effective. It is hardly necessary to point out that the bowels should be stimulated, and the system purged of all waste materials. For this purpose Dr. Hamilton's Pills are recommended. They act without griping or discomfort of any kind. This combination treatment of Nerville and Dr. Hamilton's Pills will prove a very satisfactory prevention for Grippe, Flu, etc.

## A Big Business

Postal Department in Canada Handles Millions Every Year

Rural routes have been extended and the inauguration of the air mail service has made it possible to deliver mail in the winter time to many isolated spots which have never before received mail during that season; thus bringing comfort to the people of the Magdalen Islands, the north shore of the St. Lawrence River, northern sections throughout the Mackenzie River district, Great Lake, Flin Flon and north to the Yukon. The postal department has some 38,750 employees in the Dominion of Canada. Of these, between 12,000 and 13,000 are postmasters. The department handles revenue of some \$50,000,000, approximately \$50 for every person in Canada in one year.

## DO YOU VALUE HEALTH?

Sickness Almost Always Due To Weak, Watery Blood

If your health is poor; if you are pale, nervous and easily tired; if you suffer from headaches or laches; if there are twinges of indigestion, or twinges of rheumatism, you may depend upon it that these symptoms come from an impoverished condition of the blood, and that unless this condition is remedied, a complete breakdown may follow. To any who are in this condition, Dr. Williams' Pink Pills will be found the perfect medicine. The whole mission of this medicine is to build up the blood, promote, assimilate, good digestion, and strengthen tired, frayed nerves. Men and women alike benefit through the use of this medicine. Therefore if you are weak or ailing, give Dr. Williams' Pink Pills a fair trial and you will be pleased with the beneficial results that will speedily follow.

Among the thousands who have found Dr. Williams' Pink Pills a real blessing is Mrs. Geo. M. Andrews, Halifax, N.S., who says: "My first experience with Dr. Williams' Pink Pills was as an anemic young girl, when they completely restored my health. Then a few years ago I became pale and run down, and my husband got a supply of the pills for me. I gave them a good trial and when my baby was born she was a big healthy baby and I did not have a day's sickness. My friends all tell me how well I look and I certainly feel that way, and I give all the credit to Dr. Williams' Pink Pills. I hope my experience will help some other woman who needs a good medicine."

You can get the pills from your druggist, or by mail at 50 cents a box from The Williams' Medicine Co., Brockville, Ont.

## Farmers Will Grow Peas

Ambitious Planting Programme in the Taber Irrigation District

The other day a carload of dried peas, being 18 tons, arrived from Gallatin Valley, Montana, for planting by Taber, Alta., irrigation farmers in the interests of the Broderbund Company, whose headquarters are in Edmonton and Vancouver. While pea gardens have been common in the district for many years the present planting programme is much more ambitious than anything in the past.

Miller's Worm Powders not only make the infestant system untenable for worms, but by their action on the stomach, liver and bowels they correct such troubles as lack of appetite, biliousness and other internal disorders that the worms create. Children thrive upon them and no matter what condition their worms infested stomachs may be in, they will show improvement as soon as the treatment begins.

### False Economy

There are many people who would die of starvation rather than dig in to their savings, but we often see men who do not know how to enjoy their money. They save by denying themselves the natural pleasures of life and in the end are forced to leave their money to people who never helped to earn it.

As a vermicide an excellent preparation is Mother Graves' Worm Expeller. It has saved the lives of countless children.

### Women Archaeologists

This archaeological season in Palestine shows a new feature of social interest. For the first time archaeological excavations are being carried on by a staff of women. This plan has been initiated by the British School of Archaeology, Jerusalem, which sent a party consisting of Miss Garrod, Miss Holman, of Cambridge, Miss Killick Clark, of Oxford, and one American woman to continue the work near Athlith, south Haifa. The director is in charge of Miss Garrod.

Work joined with courage enables us to overcome all obstacles.

Neuralgia succumbs to Minard's Lintment.

W. N. U. 3786

## Canadian Press Excursion

Newspaper Editors To Enjoy Extended Holiday in Europe

Newspaper editors from all over Canada who leave Montreal early next month for a two months' visit to England and the continent, when they return the visit paid to Canadian newspapers two years ago by the Newspaper Society of Great Britain, will be entertained royally wherever they go. Full plans for the visit, which is being organized by Rupert Davies, editor of the Kingston Whig-Standard, were announced recently, following his return from the meeting of the Canadian Daily Newspaper Association at which many of those who are going to Europe met.

Among the high spots of the visit which, although entirely unofficial, will be of great benefit to Canada, and to the prospects of increasing immigration, are a dinner to be tendered jointly by the Newspaper Society of Great Britain and the Empire Press Union in London, a gala performance at the State Opera House in Vienna and a garden party at which the president of Czechoslovakia will be the host.

There is to be much private entertainment with such hosts as Lord and Lady Astor, Lord Beaverbrook, Major John J. Astor, of The London Times, Col. Grand Morden, and Sir Richard Winfrey, who was one of the leaders of the British party which spent some months in Canada in 1927, and who will receive the Canadian editors at his home in Peterborough.

The complete itinerary commences with the sailing of the Canadian Pacific liner "Montclair," on Friday, June 6, and includes visits to France, Austria, Czechoslovakia, Germany, Belgium, Holland, Great Britain and Scotland. Five weeks will be spent on the other side of which three will be in Great Britain. The editors will return to Canada from Liverpool on the liner "Duchess of Atholl," reaching Montreal, July 28.

## Origin Of National Anthem

Is One Musical Mystery Nobody Has Solved Yet

The origin of the British National Anthem is a musical mystery which has never been solved. It is known that it was first sung in public at Drury Lane, and Covent Garden in 1745, when the news of the defeat of Sir John Cope's army at Prestonpach reached London. But it was written a few years earlier than this, and the student of the subject is fairly sure about it that it was written as a national prayer for the safety of George II. against the Jacobites, and the version given in the "Gentleman's Magazine" in 1745, makes it peculiarly applicable to the fervent prayer of today, though for a very different reason.

Simple and Sure—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young and old.

## Not An Affection

True Courtesy Is Outward Expression Of Sympathetic Nature

Many people regard the graciously mannered person distrustfully, and look with disfavor on displays of extreme politeness—and there certainly is a type of manner which repels because of its patent artificiality. But true courtesy is not an affection; it is the outward expression of a thoughtful and sympathetic nature. We cannot all achieve outstanding success in life; we cannot all perform great services for our fellow-men; but it is possible for the least of us to set graciously in our dealings with others—to behave beautifully in the ordinary affairs of every day. Let us then cultivate that "finest of the fine arts"—courtesy.

Cheapest Of All Oils—Considering the qualities of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it.

Melting of the Antarctic Ice cap, according to an Australian scientist, would raise the levels of the oceans by fifty feet.

No matter how deep-rooted the corn may be, it must yield to Holloway's Corn Remover if used as directed.

An Imperial Airways liner covered the distance from London to Paris in 100 minutes.

Minard's Lintment relieves pain.

# Firestone

is the Toughest Tire in the WORLD

TOUGHNESS—durability—long-mileage—safety! That is what you want in tires. And you find them all in Firestones. The best non-skid tread ever put on a tire grips the slippery roads you travel at this season. Firestone tires give the greatest mileage, the greatest safety at the lowest cost per mile. See the Firestone Dealer today.

FIRESTONE TIRE & RUBBER CO. OF CANADA, LIMITED  
HAMILTON ONTARIO

## The Wonders Of Chemistry

Will Be Used To Build and Change Character Is Prediction

The American Chemical Society, meeting at Columbus, Ohio, held out a few alluring prospects for the future.

For instance, the time may be coming when a man won't have to build his own character, but can depend on chemistry to do it for him. Then persons owing cows, if they're fortunate enough to have a little woodland, will have the cow-d problem solved for all time because cows will eat wood.

Wood, chemically treated, is already being used for cow-fodder in some countries, according to C. L. Esselen, Boston chemical engineer, who addressed the society.

Dr. J. S. Matthews, of the University of Wisconsin, predicted that chemistry would be used to change and build character and in this connection he believes the insane will be made well and that the seasoned criminal will become a law-abiding citizen.

Future generations may be giants, one chemist said, if scientists can discover, by synthesis, the cause of growth which lies hidden in the cell nuclei. The discovery, he said he believed, would hinge upon the balance of atoms.

## Toes Made Comfortable

### Sore Corns Removed

Quick, safe relief is almost instantaneous if you apply PUTNAM'S CORN EXTRACTOR. Shoes won't pinch or hurt. One single drop of Putnam's stops the pain. A few applications make the corn dry up and drop off. Putnam's Corn Extractor gives satisfaction. Thousands use it every day. Get a bottle from your druggist. Refuse a substitute for "Putnam's" the one sure relief for sore corns.

How many people do you know who are spending money they have not yet earned for things they don't need to impress people they don't like.

The prairie provinces with manufactured products during last year valued at \$327,000,000 begin to have tall chimneys of their own.

## Another X-Ray Victim

French Doctor No Longer Able To Use Hands

Another specialist has been added to the list of X-ray victims. Dr. Sebastian Turchini, of the Charite Hospital, Paris, has had to resign on account of injuries received. Since 1919 he has undergone a number of operations, and has lost several fingers, so that he is no longer able to use his hands for manipulating the X-ray apparatus. For 30 years Dr. Turchini has been associated with the development of the X-ray treatment, and, although suffering ill-effects, has shown great devotion.

Could Hardly Live For Asthma, writes one man who after years of suffering, has found complete relief through Dr. J. D. Kollig's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesaler.

## May Make Polar Trip

Great Zeppelin Likely To Make Expedition Next Year

In addition to being groomed for a round-the-world trip this summer, the Great Zeppelin is destined to show its silver sides to the white waste lands of the Arctic before another year has passed.

The International for the Exploration of the Arctic Regions by means of aircraft, has entered into a contract for the use of the big ship for an expedition from Leningrad to either Nome or Fairbanks by way of North Polar regions. The trip will take place in April or May of 1930.

A new laboratory in Berlin, Germany, is equipped to produce temperatures as low as 432 degrees below zero, or about 8 points from absolute zero.

## NEW TAX ON SALE OF SHARES TO BE LEVIED

Ottawa.—The new tax on sale of shares of stocks scheduled to come into effect on July 1 next, again received the endorsement of the House of Commons. By a vote of 98 to 56 the House defeated the amendment moved by Hon. R. B. Bennett, Conservative leader. The amendment would have had the effect of leaving the tax on shares as it is at present.

The amendment was moved when the resolution to give effect to the tax changes came up for second reading. This resolution had a rough time when the House was in committee of ways and means but emerged successfully after two votes. The new taxes were levied along much the same lines. A conspicuous opponent was Malcolm Lang, Liberal member for Temiskaming, who condemned the proposal in no uncertain language and voted against it when the House divided.

A number of Conservative members voiced their opposition to the new levy but the other groups took little part in the debate.

Following the division, the resolutions received second reading and a bill based on them received its first reading.

During the debate the minister of finance, Hon. J. A. Robb, said there was never a time in recent years when so much speculation had taken place on the exchange throughout the country than had been witnessed during the past year. He submitted there was a general feeling that the nation should profit by this speculation. If men decided to gamble on the market and risk their money, there was no reason why they should not assist the national treasury, Mr. Robb said.

## Engine Driver Acquitted

Verne Alexander Found Not Guilty Of Criminal Negligence

PARRY SOUND.—Verne Alexander is a free man, acquitted by a jury of his peers on charges of manslaughter and criminal negligence. Alexander was the engine driver of the ill-fated Canadian National train No. 3, which crashed head-on into another train after running past its ordered meeting point at Droucourt in the early morning hours of March 20 last. Seventeen and possibly 20 lives were lost, and criminal proceedings were launched against the three surviving members of the train crew.

After a trial lasting two days and a half, Alexander was found not guilty by a jury under Mr. Justice Ransay. The charges against Fireman Edward Riley, of Winnipeg, and Brakeman Charles Corlies, of Toronto, will not be proceeded with.

The chief defence offered was the distraction under which Alexander was laboring.—the operation of a "false" engine coupled with the failure of the warning signal which is ordinarily given by the conductor as a train approaches a meeting place. Alexander admitted he forgot his orders and flashed past Droucourt.

## Honorary Degrees

Five Degrees To Be Conferred By University Of Manitoba

Winnipeg.—Five degrees of doctor of laws, honoris causa, will be conferred by the University of the West prepared by university officials.

Those who will receive the honorary degree are: Henry Mark Aml, director of Canadian school of pre-history in France; David M. Duncan, superintendent of schools, Winnipeg; Rev. R. G. MacBeth, pastor of St. Paul's Presbyterian Church, Vancouver; Chester Martin, professor of history, University of Manitoba; Walter C. Murray, president, University of Saskatchewan.

## Appointed To Calgary Post

Ottawa.—Lieut.-Col. C. E. Conolly, officer commanding Lord Strathcona's Horse, Royal Canadians, is to take over the duties of general staff officer, Military District No. 13, Calgary, it was announced at the department of national defence. He will succeed Captain H. T. Cook, of the R.C.R., who returns to regimental duty at St. John's.

## Cruiser At Victoria

Victoria.—H.M.S. Colombo has arrived at Esquimalt naval base here from Bermuda in command of Captain C. C. Dodson, D.S.O. The cruiser will remain in British Columbia waters until August.

W. N. U. 1786

## Urges Outlets For Peace River Country

Railway Would Lengthen Mackenzie River Season Says General McRae

Ottawa.—Construction of railway outlets for the Peace River country from the Mackenzie River to Vancouver, through Peace Pass, which is claimed would increase the present season on the Mackenzie to the Arctic from two and one-half, to four and one-half months, was advocated in the House by General A. D. McRae, Conservative, Vancouver North.

The railway, as advocated by General McRae, would be joined in its course by the present railway from Peace River Crossing and Edmonton and would meet the Mackenzie River somewhere below Great Slave Lake in the vicinity of Fort Providence. It would give, General McRae estimated, a 40-hour rail service from Edmonton to that point. This would compare with the present "infrequent boat journey of eight days downstream and 12 days return, and that for a limited time each year."

The railway, by missing all boat delays due to ice in Great Slave Lake in the spring, would make it possible, he declared, "to reach the Mackenzie River six weeks earlier in the spring and two weeks later in the fall, increasing the present season on the Mackenzie to the Arctic from two and one-half to four and one-half months, thus opening up a new Arctic for us."

With such a railway line the Mackenzie River season would be from May 15 to early in October, General McRae stated.

## Would Cost Forty Million

Charter Being Asked For Manitoba Line To Hudson Bay

Winnipeg.—Approximate cost of the proposed Emerson-Churchill Colonization Railway, which would act as a feeder to other railways and bring Winnipeg 260 miles nearer Churchill, terminus of the Hudson Bay Railway, is \$40,000,000, Charles F. Gray and Fred C. Hamilton, directors of the company seeking a charter for its construction from the Manitoba government, told members of the law amendments committee at a special session held here.

The committee ordered the bill reported to the legislature with an amendment providing that construction be commenced within three years and completion of the line in five years.

The line would be constructed from Emerson, 60 miles from Winnipeg on the Manitoba-Minnesota boundary.

## Ask Higher Duty On Eggs

Poultrymen Have Made Application To Tariff Advisory Board

Ottawa.—For the first time on the records of the tariff advisory board, the western provinces have produced an application for an increase in duty.

There are 40,000 poultry men of the western provinces and many more from Ontario, as well as more than 2,000 merchants in British Columbia and the prairies in sympathy with the application placed before the tariff advisory board recently for 200 per cent. increase of duty on imported eggs.

The increase asked in the application is from 3 cents to 9 cents on every dozen of eggs brought into Canada in the "extra" class. The item probably affects more individual producers than any other which has ever come to the attention of the commissioners.

## Phillips To Retain Post

Ottawa.—Hon. William Phillips, first United States minister to Canada, will continue here during the Hoover administration. Mr. Phillips returned from Washington where he conferred with President Hoover, and Henry L. Stinson, Secretary of State. There was no indication, he said, that there would be any change of representation in Canada.

## Postal Bill

Ottawa.—The House of Commons gave second reading to the bill which provides for adjustment of salaries of the postal employees who participated in the Winnipeg strike of 1919 and were subsequently re-employed at reduced wages. The bill now stands for third reading.

## Celebrated Librarian

Wofa, Bulgaria.—Tens of thousands of Bulgarians in the remote towns and villages of this little kingdom were on a pilgrimage here May 15, to participate in the British anniversary of Bulgaria's liberation from Moslem Turkish rule.

## EXPLOSION IN HOSPITAL TAKES A HEAVY TOLL

Cleveland.—Poison gas and two explosion which followed burning of X-ray films in the Cleveland Clinic claimed 124 lives.

There were 98 known dead, and hospital authorities worked desperately to administer artificial respiration to 43 more who were overcome. Victims from the disaster were dying at short intervals, and physicians sent out appeals for additional oxygen for fear that the supply in the city might prove insufficient.

Nearly all the deaths were attributed to the deadly gas which filtered through the four-story brick building—slowly at first, and then augmented by a second and greater explosion that, first, rushed up from the basement and cut off escape down the stairways and elevators.

It was ironic that the disaster occurred in a very place where the most advanced instruments and laboratories of science had been turned against pain and death. The clinic was owned principally by Dr. Geo. W. Crile, nationally-known physician, who was too occupied with relief work to comment on the catastrophe.

Identity of the powerful gas which wrought one of the worst tragedies in the history of the city had not been determined.

It is probable, however, it was a mixture of gases coming from many forms of chemicals in the building. In addition, the burning films gave off a gas said to be bromide.

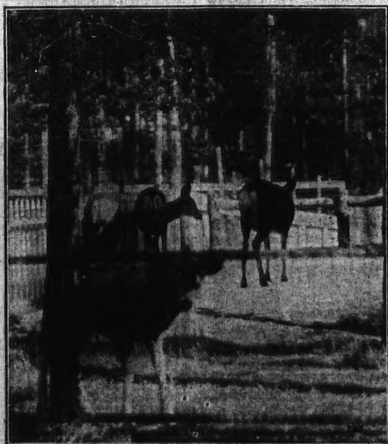

Although doctors and nurses got out a few patients at the start hardly a minute went by before the fumes filtered out from every opening, forcing rescuers back. When the gas began to lift, they rushed into a scene of shrieking horror.

Bodies littered the floor like flies that had been sprayed with poison. Some of them were scarred by flames, their clothing black and smoking. Others who had not lost consciousness were crying out in agony. Among the most pitiful sights of the disaster were suffering patients who in agony dragged themselves to windows seeking fresh air, and who were too weak to break the glass to get it. They clawed their hair and shrieked, but their voices were drowned out by other noises. For a moment they stood at the windows beating helplessly, then slid down the floor out of sight to die in horrible fear.

The Cleveland Clinic is a separate building from the Cleveland Hospital. The Clinic, a four-story building, houses many laboratories of physicians, and the death toll was from both the staff and patients who come for consultations.

## Coal Rates From Alberta

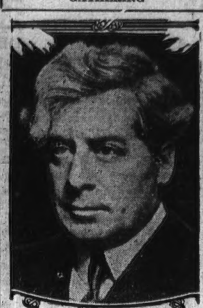

Edmonton.—Coal from Alberta mines will move to Ontario at the special freight rate for the same period in 1930 as this year. A. Chard, freight traffic supervisor for the province, has received notice from the Canadian Railway Board of an order setting January 15 to July 15 as the coal movement season for next year, thus continuing the present arrangement for one year more.

## Deer Permit Petting

This photograph is submitted by W. E. Round, of Banff, Alberta, as evidence of what protection does in the way of overcoming timidity. These deer, native to Banff National Park, will use either back door or front when visiting and now have so much misguided confidence in humanity that they allow themselves to be petted.

## PRESIDES AT NEWSPAPER GATHERING

Henri Gagnon, president of the Canadian Daily Newspapers' Association, who presided at the tenth annual meeting of that organization.

## All-Canada Telephone Line

Plan Would Link Up East and West On All-Canada System

Edmonton.—Planning an all-Canadian telephone line between east and west, which might be in operation this summer, prominent telephone company officials arrived in the city for a conference with the provincial government. In the party are H. F. Harris, executive vice-president of the Associated Telephone and Telegraph Co., Chicago; W. N. Curtis, vice-president and general sales manager of the Automatic Electric Co., Inc., Chicago, who are accompanied by G. H. Halse, chairman of the British Columbia Telephone Board.

At present Alberta and British Columbia are the only two provinces that have inter-provincial telephone service. Now it is planned to link up all the provinces so calls can be handled on an all-Canadian line without having to utilize services in the United States.

After leaving here the officials will confer with the government in Saskatchewan and Manitoba. Mr. Halse will go on to Ottawa, while the others will return to Chicago.

## Pay Fines On Instalments

Bill Before Senate Would Amend Criminal Code

Ottawa.—A bill sponsored by Senator Beaulieu amending the criminal code so as to provide that fines may be paid on the instalment plan, was given third reading in the Senate.

The Senator pointed out that there were 220,000 people convicted and fined last year in Canada. Of these 40,500 paid and the remainder went to jail. He thought it unfair to brand as jail birds many who were unable to pay their fines.

## Death Of Pioneer

Winnipeg, Man.—William Elliott Macdon, R.C.C., 70, registrar-general of Manitoba, and pioneer of the province, died at his home here, May 15. He had been ill for several months. Mr. Macdon was born in London, Ontario, and he came west in 1882. He had been connected with the land titles office here for more than 42 years. Mrs. Macdon survives.

## Feed Grain For Poultry

Alberta Wheat Pool To Assist Poultry Raisers Of B.C.

Vancouver.—With the object of supplying British Columbia poultry farmers with feed grain at prices lower than those now charged, the Alberta Wheat Pool is turning its attention to this phase of marketing and is expected to institute a service which will benefit the poultry industry, particularly in the Fraser River Valley.

This makes the gist of an announcement made by G. G. McGeer, K.C., before the Saskatchewan Grain Enquiry Commission. The sitting was devoted to the hearing of witnesses from among British Columbia poultry raisers. Mr. McGeer intimated that he would call witnesses to bear out his announcement regarding the plans of the Wheat Pool. Two farmers who had retired from the prairies to raise poultry in the Fraser Valley, painted a gloomy picture of present conditions in the industry. They agreed that without cheaper feed British Columbia farmers faced ruin.

## Will Tour Western Canada

New Head Of Salvation Army To Make Visit Next Fall

Toronto.—General Edward J. Higgins, recently chosen head of the Salvation Army, in succession to General Bramwell Booth, will tour Western Canada in the course of his first visit to the Dominion next fall. Accompanied by his wife, he will arrive at Montreal on August 20, and after visiting a number of eastern centres will proceed west. His western itinerary, however, has not yet been planned.

General Higgins will attend the National Congress of the Salvation Army in Canada, to be held from October 11 to 15, inclusive.

## KING GEORGE RETURNS TO WINDSOR CASTLE

Windsor, Eng.—The King came back to his own friends in this ancient home of British sovereigns like a conquering hero.

All Windsor and the surrounding countryside were out to welcome their monarch back after his long illness, which for many weary months had kept him from them. Windsor was decorated as seldom before. Not a single house or shop on Castle Hill or in the main street of the city was without gay decorations.

The King, accompanied by Queen Mary, had a remarkable reception throughout their 24 hours' trip from Craigwell House, near Baginbun, where the King had spent several months of convalescence. But it remained for the "old home town" to outdo all the others as it welcomed again its most prominent resident.

Thousands of cheering spectators, including two thousand school children and one thousand Eton boys in silk hats and quaint jackets lined the ancient thoroughfare. As the royal car drove through, bags of rose petals were emptied from windows and fell in a crimson cascade about the machine.

It was the first time most of the inhabitants of Windsor had seen the King since the beginning of his illness last year. All along the line there arose cries of "God bless your majesties" and "Welcome home!"

The King and Queen were smiling happily as they bowed towards the white sea of fluttering handkerchiefs and once or twice the Queen brushed moisture from her eyes.

At the bottom of Castle Hill, which rises steeply up towards the ancient grey stone pile, were waiting the mayor in his golden chain of office with his aldermen. The royal car halted and the door near which the King was sitting swung open. His smiling face appeared and he grasped the hand of the mayor as he said:

"Thanks very much. We are pleased to be back in Windsor and I am very glad to see so many citizens here."

The King shook hands with the rest of the delegation and the car then swung up the hill towards home.

It was officially stated at the castle that the King bore the journey well and that His Majesty showed no signs of undue fatigue. Soon after arriving at the castle the King and Queen luncheoned together.

Announcement has been made recently that Queen Mary would hold courts at Buckingham Palace on June 26 and 27.

## TO URGE RIGHT OF WOMEN TO SIT-IN SENATE

Ottawa.—Proposed amendment of the British North America Act to enable women to sit in the Senate, and the subject of women having equal rights with men in the selection of political candidates, were among the outstanding questions under consideration here by members of the legislative committees of the National Federation of Liberal Women of Canada.

In welcoming the delegates, drawn from all parts of the Dominion, Mrs. Mary Ellen Smith, of Vancouver, B.C., president of the Federation, sounded a note of optimism.

"The citizenship we enjoy demands our best," she said. "It requires us to make the most of the opportunities which are ours. It requires us to be serious enough in that our principles are near and dear to us, and we are assembled to decide what the best methods of promoting good-will are, also to cement the ties that bind us."

Mrs. Smith urged that the work of the federation be co-ordinated and constant care exercised "to help in the best manner possible to prove that we are big enough—whether east or west—to see the other woman's viewpoint." Members should be tolerant enough to compromise and always to feel that their motto should be "charity towards all."

## Parliament Will Sit On Wednesday Evenings

To Put Through Balance Of Session's Business Without Delay

Ottawa.—Prorogation of parliament begins to loom on the horizon. With a view to expediting the remainder of the work of the session, Premier W. L. Mackenzie King has given formal notice on the order paper of the House of Commons that the Commons to sit on every Wednesday evening, beginning at once.

The usual practice is for a six o'clock adjournment each Wednesday evening, but towards the end of each session Wednesday night sittings are introduced for the purpose of putting through the balance of the session's business with as little delay as possible.

## New Branches For Red Cross

Society Added Fifty-Three To Organization Last Year

Ottawa.—A definite advance in the recruiting activities of the Canadian Red Cross Society during 1928 was reported by Dr. J. L. Biggar, national commissioner, of Toronto, at a session of the central council of the society.

At the end of the year under review 433 local branches are functioning. This total included 53 new branches and reorganization of 52 inactive branches.

The commissioner's report indicated that, although ten years had elapsed since the end of the first war, there had been no material diminution of Red Cross service for ex-soldiers.

## Amend Metal Marking Act

House Of Commons Passes Bill In New Form

Ottawa.—In amended form, the bill amending the precious metals marking act, 1928, was passed in the House of Commons. The measure, as it now reads, provides that if an article imported under this act has applied to it any mark, it must, if manufactured in Canada, bear also the name of the manufacturer. If the article is imported, it must also bear the trade mark of the importer, or the name or trade mark of the manufacturer or dealer together with the word "imported."

## Purchase Timber Rights

Oshawa Firm Will Supply General Motors With Timber Needs

Oshawa, Ontario.—Gale and Trick, of this city, announced their firm has purchased a block of 15,000 acres of timber rights in northern British Columbia, and has a mill under construction to cost approximately \$150,000.

The limits are about 90 per cent. spruce, and the company will supply the timber needs of the Regina plant of General Motors of Canada. The balance of the production will be shipped to the Oshawa and Walkerville plants.

## TEA AND SALE

Home Cooking, Plain and Fancy Towels, etc.

Under the Auspices of the C.W.I.

BLAIRMORE OPERA HOUSE

TUESDAY, JUNE 11

Commencing at 3 p.m., till 6 p.m. EVERYBODY WELCOME

One of Great Britain's most popular figures, in the person of Lord Rosebery, died at Epsom, England, on May the 20th, aged 82.

Mr. Jas. Stark, of the Canadian Pacific Express Company, Fernie, who has been transferred to Vernon, is the guest of his sister here, Mrs. A. F. Ferguson, for a few days prior to taking up his new post.

The Moose Hall was packed with a happy crowd of dancers last Saturday night and splendid music was furnished by the Altermatt orchestra, consisting of Frank Johnson, violin; Chas. Slopak and Joe Borasio, saxophones; Steve Machen, trumpet; Fred Paul, banjo; Howard Picard, drums, and Altermatt, piano.

For Entire Week—Fresh killed local Beef, Veal, Pork and Lamb. Full assortment of Cooked and Spiced Meats, Lard, Graded Eggs and fresh Glendale Butter, the climax of quality. Fresh Salmon, Halibut and Cod, also Smoked and Cured Fish, always on hand.—BURNS & CO., LTD.

A tea and sale of home cooking, plain and fancy towels, etc., will be held by the Catholic Women's League in the opera house on Tuesday, June the 11th, from 3 to 6 p.m. [m23-3]

Have your sweetheart take you to see "Loves of Casanova" on Wednesday or Thursday at the Orpheum. This picture has beauty, humor and drama. You'll enjoy it when you see it.

The work of rebuilding the post office at Truro, Nova Scotia, has been completed. The building, now has a floor space of 18,000 square feet, which is slightly larger than Blairmore's institution.

Orpheum, Friday and Saturday, "The Wedding March," featuring the man you love to hate, Erich Von Stroheim in his greatest love story. You will remember "The Wedding March" for years. Don't miss it.

Old man mosquito was holding forth to the youngest member of the clan. "You don't know what it is to work for a living," said he. "Take women, for instance. In my day all you could prospect on was face and hands, whereas now—"

## Local and General Items

A little love, a little hate, and that is life; a little hanging on the gate, and then a wife.

A dance will be held in the school house at Burnia on the night of Friday, May the 31st.

Quite a number of valuable residence properties have changed hands in Blairmore during the past two weeks.

N. E. Stevens, club assistant pilot, and H. A. McCallum, were killed instantly when their plane crashed to the ground at Calgary Sunday noon.

A Damm-Quick wedding was reported recently in the Leamington Post. Olive Hazel Quick became the bride of Clayton Damm, both of Essex.

Mr. H. W. Duncan and Miss B. M. Duncan, of Banff, were guests at the Alexandra hotel, Lethbridge, on Thursday last, according to the Lethbridge Herald.

Here Monday and Tuesday, Bebe Daniels in her latest comedy drama, "The Fifty-Fifty Girl." Laughs, thrills and more laughs. See it at the Orpheum.

Two carloads of Chevrolet and Studebakers were unloaded here for the Crows' Nest Pass Motors during the week, also a couple of carloads of Chrysler cars for C. Sartoris.

A tourist passing through Cowley main street the other day overheard a citizen of that town remark: "But this street is good as a whole." The tourist in rage replied: "Good heaven! but we wish to use it as a road!"

Si: "Sarah, is there anything you want from town this morning?"

Sarah: "Well, Si, you might stop in at one of them stores and buy a jar of that 'traffic-jam' I've been hearing so much about."

Sidney White, of Coleman teaching staff, received his degree as bachelor of arts at the Alberta University convocation last week. His mother, Mrs. George M. Wilson, and Mrs. Odell and daughter attended the convocation exercises.

A memorial will be erected at St. Albert, Alberta, in memory of Father Lacombe, at a cost of \$8000. St. Albert was his first parish and the old chapel is still to be seen and will be preserved by collections from the people of Alberta.

Thomas Whelan, once well known proprietor of the Napanee hotel at Fernie, but for the past ten years part owner and manager of the Regent hotel at Vancouver, died in England on May the 16th, after a lingering illness. He was born in Napanee, Ontario.

The congregation of St. Luke's Anglican church here have acquired the title to the property which has been occupied by them for several years on Victoria Avenue. They have already undertaken to renovate the building and beautify the surroundings, the first step being to plant a number of trees in front.

Mr. Marc Piard, of Bellevue, is being congratulated for his success in winning first in the cello competition at the Edmonton musical festival. He happened to be the only entrant in his class. Similar success attended his effort at the recent Crows' Nest Pass musical festival in Blairmore.

Constable Fordham, who has been connected with the Blairmore detachment of the Alberta Provincial Police for about two years, has been transferred to Taber, where he has been assigned charge of a detachment. Const. and Mrs. Fordham left for their new home last week end. While here, the young couple made a host of friends who regret their departure. Constable Fordham is succeeded here by Constable Maddison, of Milk River.

### SCHOOLS TRACK MEET

AT COLEMAN MAY 23

Following is the classification and list of events for the district schools field day to be held at Coleman tomorrow, Friday, May 24th, commencing at 10 a.m.

Class A.—Boys, 75 lbs and under; girls, 70 lbs and under.  
Class B.—Boys, 95 lbs and under; girls, 90 lbs and under.  
Class C.—Boys, 110 lbs and under; girls, 105 lbs and under.  
Class D.—Boys, 125 lbs and under; girls, 120 lbs and under.  
Class E.—Boys and girls, open.

The above weights are net, weight in ordinary school clothing, less five pounds. Ages are as on May 1st, 1929.

### List of Events

Girls' Running Races—A, 50-yard dash; B, 50-yard dash; C, 75-yard dash; D, 75-yard dash; E, 90-yard dash.

Girls' Relay—A, B, C, 200 yards; D, E, 300 yards.

Boys' Running—A, 75-yard dash; B, 75-yard dash; C, 100-yard dash; D, 100-yard dash; E, 100-yard dash. D and E, 220-yard dash.

Boys' Relay—A, B, C, 440 yards; D and E, 440 yards.

Stamling Broad Jump—A, B, C, D and E, girls, separate events; A, B, C, D and E, boys, separate events.

Running Broad Jump—Boys and girls, A, B, C, D and E, separate events.

Running High Jump—Boys and girls, A, B, C, D and E.

Shot Put (8-lbs)—Classes C, D and E, boys.

Basketball Throw—Classes C, D and E, girls.

Tug-of-War—Boys.

Tug-of-War—Girls, team of 8, no cleats, three pulls with toss for direction first pull.

Yes, we can remember when grandmothers wore several petticoats and other unmentionable armor, and we also know girls of today can get along with less. Modern parlour suites are not upholstered with horse hair.

A dance will be held in the Union hall at Frank on the night of Friday, May 31st.

### NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE OF JAMES GORDON EWAN, late of the City of Victoria, in the Province of British Columbia, accountant, deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named James Gordon Ewan, who died on the 17th day of August, 1927, are required to file with the undersigned Solicitors for the Executor by the 1st day of July, 1929, a full statement duly verified of their claims and of any securities held by them, and that after that date, the Executor will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been brought to her knowledge.

Dated this 23rd day of May, 1929.  
GILLIS & LYNCH-STANTON,  
Solicitors for  
VIOLET F. EWAN,  
Executrix.
